CrewFollo AI

EARLY PILOT PITCH DECK

AI Lead Assistant for Home Service Businesses

Respond faster. Collect job details. Book more estimates.

Early pilot: Los Angeles home service businesses

Lead workspace

Incoming lead: "I need drywall repair this week."

CrewFollo asks for photos, ZIP code, timing, and urgency.

Owner summary: job type, location, next step, suggested reply.

PROBLEM

Small contractors lose jobs when they cannot reply fast enough.

Owners are busy
They are on ladders, driving, buying materials, or talking with another customer.

Leads need details
Customers often send incomplete requests with no photos, ZIP code, timing, or clear scope.

Follow-up slips
Good prospects go quiet and are easy to forget without a simple system.

SOLUTION

CrewFollo keeps the lead conversation moving.

- Prepare fast, professional replies for new leads.
- Ask for photos, ZIP code, urgency, timing, and access details.
- Summarize every lead into an owner-friendly next step.
- Prepare polite follow-ups when customers stop responding.

Fast response

Never let a good inquiry sit unanswered.

Better intake

Collect the details needed before the estimate call.

Owner control

AI drafts the message. The owner approves the reply.

PRODUCT / DEMO

A simple workspace for lead intake, summaries, and follow-up.

The MVP starts with message workflows and expands toward richer integrations, booking, and bilingual communication.

Estimate packet

Trade: Tile / flooring

Photos: received

Urgency: next 2 weeks

Next step: schedule estimate

MARKET / AUDIENCE

Built for small home service businesses that depend on local leads.

Primary users

Handymen, painters, plumbers, electricians, cleaners, roofers, landscapers, flooring pros, and small contractors.

Lead sources

Google, Yelp, Facebook, Thumbtack, website forms, SMS, email, referrals, and manual copy-paste workflows.

Best early market

Owner-led and family-owned crews that are too busy for slow follow-up but not ready for complex CRM systems.

BUSINESS MODEL / GROWTH

Start narrow, prove value, expand workflow depth.

- Early pilot with 5-10 Los Angeles home service businesses.
- Founder-led setup for each trade and lead source.
- Discounted early access pricing after launch.
- Expansion path: integrations, calendar handoff, voice workflows, and bilingual support.

Acquire

Local contractor outreach, referrals, trade communities, and founder-led demos.

Activate

Set up one useful lead workflow in the first session.

Expand

Add templates, integrations, and automations as trust grows.

COMPETITIVE ADVANTAGE

Focused on small contractors, not generic chat or enterprise call centers.

- Trade-specific intake questions and photo request flows.
- Owner approval and practical workflows for early trust.
- Designed around messy local lead sources and small-team operations.
- Simple setup for crews without complex CRM systems.
